

# Cable Jointer

---

## Role profile

Reporting directly to the project manager, we're looking for an experienced cable joiner who will be working on electrical projects ranging from 11kv through to 132kV.

You'll have working experience on both private and DNO electricity networks - preferably on both LV and HV experience - as well as a high regard for safety.

---

## Key responsibilities

- Installation of joints and terminations on a wide range of electricity cables up to 33kv
- Following all published guidelines, standards, policies and procedures to ensure satisfactory completion of work
- Maintaining and developing competence level and technical skills to ensure delivery to high standards
- Attending training as required to maintain knowledge and application of systems and procedures
- Delivery of scheduled/unscheduled work to time and standard in accordance with instructions.

---

## Health and safety

- Maintain awareness of Smith Brothers' Health & Safety policy and rules and keep up to date on changes that impact your role
- Adhere to the safety rules, instructions and standing orders of Smith Brothers' and its customers
- Complete and record risk assessments and daily diary sheets as instructed
- Take reasonable care of yourself and others who may be affected by your actions
- Promptly record all accidents and near misses
- Report any concerns regarding safety, health or the environment
- Use all machinery, equipment, substances, transport and plant appropriately and in line with company guidance.

# Skills, qualifications and experience

## Essential

- Up to date CSCS Card and first aid certificate
- Experience on jointing a wide range of cables up to 33kV
- Experience of PILC, XLPE and EPR cables
- Basic electrical safety knowledge
- Risk assessment training
- Numerate and good IT skills
- Full driving licence
- Cable jointing trained on a minimum of 11kV without supervision
- Sound knowledge of H&S and risk assessment
- Self-motivated and customer focused
- Energetic and hard-working
- Flexible approach to travelling hours and work location

## Desirable

- CITB safety passport card
- IPAF / PASMA / NRSWA, cable winching and abrasive wheel certificate
- IOSH formal training
- Organised and with good communication skills

## In return

As well as a competitive and attractive salary – proportionate to the knowledge and experience of the candidate – we offer the following additional benefits:

- Permanent contract and a rewarding career
- Ongoing professional development and training
- Pension contribution
- Private health and life insurance
- Fully expensed company vehicle and fuel card, or car allowance
- 25 days annual leave plus bank holidays.

## How to apply

If you feel you possess the above skills, qualifications and attributes, and would like a confidential discussion with us, please call us or send your CV to [recruitment@smithbrothersltd.co.uk](mailto:recruitment@smithbrothersltd.co.uk). All applicants must have the right to work in the UK.

***We require two references on application, one of which ideally from your current/last employer.***

## Who are we?

Smith Brothers Ltd is a large, turnkey electrical contractor with over 20 years' experience.

Since our inception in 1999, we've worked on a vast portfolio of projects throughout the UK and overseas, both as an ICP and EPC contractor on projects up to 132kV.

Whether we're working on a high or low voltage distribution system, a simple assignment or a complex turnkey project, we have varied and in-depth expertise at our fingertips.

Our team is made up of highly-trained electrical engineers, jointers, wiremen, and fitters - not to mention back-office staff including estimators and project coordinators.

We believe in a flexible working culture, with options to work from home as well as at the company's offices in Elland or Sheffield.
